

MICROSOFT TEAMS ROOMS VIDEO CONFERENCING

PROVIDE A SEAMLESS MICROSOFT TEAMS
MEETING EXPERIENCE FOR ALL USERS

Easy to Start and Manage Meetings

Remark Group's Microsoft Teams Rooms (MTR) solution will transform any room into a Microsoft Teams meeting room, with one-touch join, and easy content sharing. It provides an intuitive, traditional video conferencing system within your meeting rooms. The system is designed to ultimately achieve a low-friction, user-friendly experience.

Multiple Deployment Capabilities for Any Room Layout

Remark Group's Microsoft Teams Room systems bring HD video and audio into your meeting. We provide our expertise to implement the whole turnkey solution, which includes the supply, installation and commissioning site-wide.

Flexible and Dynamic Working across Multiple Locations

The solution will not only enable users to experience instant, high-quality audio and video, but users can also easily share content to enhance collaboration and use your favourite Teams features: chat, meetings, calls, calendar, and files.

BRING MICROSOFT TEAMS INTO YOUR CONFERENCING ROOMS. START MEETINGS ON-TIME WITH ONE TOUCH, EXPERIENCE RICH HD AUDIO AND VIDEO, ALL THROUGH THE FAMILIAR MICROSOFT TEAMS PLATFORM.

A Clear and Reliable Conferencing Experience

Designed for various sized meeting spaces and providing a complete conferencing solution, we install everything you need. We fit industry-leading beam-forming microphone technology and full-range speakers to ensure that everyone's voice in the room can be clearly heard.

We combine this with display screens; cameras; and cabling, to ensure you can effectively collaborate. Each of our intuitive solutions is tailored to the unique specification of the room, to provide a high-quality conferencing experience.

Remark Group's solutions for Microsoft Teams include everything you need for low-friction video meetings. Whether deployed in small, medium and large configurations, solution will allow participants to join MS Teams calls directly, either from a designated Meeting Room or via a bring your own device approach.
